

WHEN TO CALL YOUR HEALTHCARE PROVIDER DURING PREGNANCY

If you experience any of the symptoms below, reach out to your healthcare provider. If you cannot reach them, go to the hospital.

Fever above 100.4

Abdominal pain that is not resolved by rest or position change

Severe headache not resolved by Tylenol and rest, or blurred vision lasting over an hour.

Significant decline in baby's activity, if you are over 24 weeks.

New onset of frequent vomiting

Leaking fluid

Urgency, pain, or burning sensation when urinating

Vaginal bleeding that is more than spotting

KEEP YOUR PRENATAL VISITS

Keep all your regular prenatal visits, and tell your healthcare provider about any concerning symptoms.
